

525 Belmont Bay Drive, Unit 202

Welcome to our home....an owner's perspective.

One of the greatest things about this unit is its layout and view. The sun sets just off to the left over the townhouses. If you are a boater, as we were for many years, you will LOVE walking right out to your boat. Even if you are not, the summer weekend "Boat Parade" of all of the boats heading out still amazes and captivates us to this day.

We have never put window treatments on the main living area because we have a water view from every window. Being able to hear and watch the summer performances at the Gazebo without ever leaving the house or from the deck is amazing!! We are amazed at the extremely minimal amount of neighbor noise, if any, that is heard.

Living here has been a true joy. The friendly neighbors and very few children make the building a quiet paradise. Each day when you enter the community, you will feel the stress leave your body as you see the water. The people in the community are active, no matter what the age. Looking out the window to dog walkers, runners, cyclists and yoga classes kept us active too. Having a teenager with us for two of the years, she was able to easily make friends and the community provided a safe environment for her.

Best of luck in your home search and thanks for visiting!! Here are some pictures over the years from our balcony!
